

- What degree program and concentration should I select?
- What are the time commitments and how quickly will I be able to complete my degree?
- What will it cost? Is the undergraduate book grant available to me?
- How can I affordably finance my education?
- Will any of my prior training or academic courses transfer toward a degree at APU?
- Is online education right for me?
- How does online education work?
- Can I take just one class instead of signing up for a semester to see if I like the program and online format?

At American Public University, we are committed to helping you succeed in your college career. Please contact our Enrollment Services team at **1-877-777-9081** or **info@apus.edu** to answer your questions or to learn more about our programs and support teams.

We want you to make an informed decision about the university that's right for you. For more about the graduation rate and median debt of students who completed each program, as well as other important information—visit www.APUS.edu/disclosure/env.

Environmental Programs at American Public University (APU)

The environmental programs at APU are designed to help prepare students for many rewarding careers, from Park Ranger to Environmental Planner, Fish and Wildlife Biologist to Environmental Manager. Students will address environmental science, policy, analysis, and management issues relating to stewardship of natural resources, sustainability, impact assessment, and global environmental change. Students who wish to focus their studies in a particular field may choose from a variety of available concentrations.

Bachelor of Science in Environmental Science: 122 semester hours (39 courses)

In addition to a general concentration, concentrations are offered in:

- Environmental Technology and Management
- Fish and Wildlife Management
- Regional and Community Environmental Planning
- Sustainability

Courses include:

- Environmental Policy, Regulation, and Law
- Environmental Management Systems
- Environmental Impact Assessment
- Energy and Resource Sustainability
- Fish and Wildlife Policies, Programs, and Issues

Master of Science in Environmental Policy and Management: 36 semester hours (12 courses)

In addition to a general concentration, concentrations are offered in:

- Environmental Planning
- Environmental Sustainability
- Fish and Wildlife Management*
