

- What degree program and concentration should I select?
- What are the time commitments and how quickly will I be able to complete my degree?
- What will it cost? Is the undergraduate book grant available to me?
- How can I affordably finance my education?
- Will any of my prior training or academic courses transfer toward a degree at APU?
- Is online education right for me?
- How does online education work?
- Can I take just one class instead of signing up for a semester to see if I like the program and online format?

At American Public University, we are committed to helping you succeed in your college career. Please contact our Enrollment Services team at **1-877-777-9081** or **info@apus.edu** to answer your questions or to learn more about our programs and support teams.

We want you to make an informed decision about the university that's right for you. For more about the graduation rates and median debt of students who completed each program, as well as other important information—visit www.APUS.edu/disclosure/env.

Fish and Wildlife Management Concentration at American Public University (APU)

The environmental degree programs at APU offer a Fish and Wildlife Management concentration which is designed to help prepare students for many rewarding careers, from Park Ranger to Environmental Scientist, Ecologist to Fisheries and Wildlife Biologist. Students will address environmental science, policy, analysis, and management issues relating to fisheries and wildlife management, stewardship of natural resources, conservation biology, and restoration ecology.

APU online degree programs are set apart from others in the industry as our professors hold leadership positions at the U.S. Fish and Wildlife Service, Environmental Protection Agency, Bureau of Land Management, The Nature Conservancy, and other organizations. APU students learn from professionals working in the careers they aspire to work in, therefore gaining a competitive advantage to pursue a wide range of career options.
